“Emma” is a unique, one of a kind mobile stage.

It is available to rent for all your musical or theatrical projects, for festivals or any open air events.

The stage can be used either static or on wheels.

With its “Old school” look, its wooden layout, its rounded front, its hidden backstage area and storage space, “Emma” is a stylistic charming part of your stage designs.

It is not only easy and fast to build up, it can also be part of a designed environment (depending on how much you choose to emphasize its nostalgic style).

Emma, Mobile Stage
